

PLASMIDS FOR THE EXPRESSION OF TRANSGENIC PROTEIN IN T CELLS

Tech ID: 16883 / UC Case 2000-007-0

ABSTRACT

Plasmid vectors (pV-alpha-11-GH and pLCRc) have been developed for the expression of transgenic proteins in immature and mature T cells.

Research using these vectors has been published:

Diaz et al. Immunity 1:207 (1994)

Ortiz et al. EMBO J. 16:5037 (1997)

Kabra et al. J. Immunol. 162:2766 (1999)
