Polyclonal Antibody against Histone H3 Lysine 18 Acetylation

immunoprecipitation, flow cytometry and chromatin immunoprecipitation (ChIP) in both human cells and yeast.

Tech ID: 21535 / UC Case 2009-306-0

INNOVATION

Researchers at UCLA have developed a polyclonal antibody that specifically recognized histone H3 lysine 18 acetylation.

The antibody has been tested and confirmed to work properly in multiple assays including western blotting, immunofluorescence,
