### Polyclonal Antibody against Histone H3 Lysine 18 Acetylation

Tech ID: 21535 / UC Case 2009-306-0

#### **INNOVATION**

Researchers at UCLA have developed a polyclonal antibody that specifically recognized histone H3 lysine 18 acetylation.

immunoprecipitation, flow cytometry and chromatin immunoprecipitation (ChIP) in both human cells and yeast.

The antibody has been tested and confirmed to work properly in multiple assays including western blotting, immunofluorescence,
